Majorities for Perea.....2,316
There have been no additional reports from Union county. Reports indicate that the vote is very close; there may be 25 majority for Mr. Ferguson or for Mr. Perea. It will take an official count to decide. Later returns make no change in the complexion for the legislature, which stands 10 Republican to 2 Democrats for the council and 20 Republicans to 4 Democrats for the house.
RIO ARRIBA COUNTY.
Dispatches received by this journal state that so far the majority of Perea, Republican, for delegate, is about 700 and that it may run a little more than that. The entire Republican legislative and county ticket is elected by majorities ranging from 700 to 1,000. Comment upon such a magnificent showing is superfluous.

EDDY COUNTY.
The official vote has been canvassed in that county and it was somewhat behind the vote of two years ago. Ferguson received 321 and Perea 126, giving a majority for Ferguson of 195. The Republicans elected the county collector and the school superintendent, which is certainly doing remarkably well. Hard work was done in that county for the Republican ticket by the territorial committee and by the county committee, and the result speaks for itself. Two years ago Mr. Ferguson carried that county by 292, a loss of nearly 100 this election.
THE RESULT IN THE TERRITORY.
According to the latest returns received the result in the territory is as follows:
CHAVES COUNTY.
Dispatches received by the New Mexican from Chaves county state that all the returns have been received, and that Ferguson's majority is 271, he having 417 votes, and Mr. Perea 146. One Republican of the county is elected, namely, Mr. Nathan Jaffa, for county commissioner. The Democratic campaign managers worked the race issue for all it was worth, but, nevertheless, the Republicans made a small gain. The members of the territorial Republican committee, of the county committee, and of the Republican paper there, "The Register," put up a gallant fight. The Republican vote in that county is slowly increasing.

LINCOLN COUNTY.
Information from that county to the New Mexican is to the effect that Mr. Ferguson carried the county by about 90 majority, although he carried it two years ago by 310. Returns from all the precincts except one have been received and this missing precinct will not change the result materially.
The Republicans elected the entire county ticket by from 6 to 60 majority, which, in consideration of the fact that heretofore Lincoln county has been one of the banner Democratic counties of the territory, and that Mr. Ferguson's friends worked very energetically in the county, made all they could of the question of race and spent a good deal of money, is doing splendidly.
It is believed that in 1900 Lincoln county will appear in the Republican column, as the newly elected officers will give during the coming two years, a clean, honest, capable county government.

He believes from what he saw in Paris that Captain Dreyfus will be reconvicted; also, that the French people were strong for war with England, so that it would take but very little "to fire the magazine," as the expression is.
County Commissioner and Mrs. Lucero went north this morning to Espanola. It will be Judge Lucero after January 1, and he has been widely congratulated on his election. The judge did not know anything about the change made on the ticket until notified the following day by a telegram brought him by Agent Collins, as he was working for the success of the Republican ticket without expecting favor or position of any kind from the party. Consequently he was greatly surprised on hearing the news.

It is understood that Judge McFie will make an address before the territorial union of the Y. P. S. C. E. next month at Las Vegas, the subject of his address being "the Christian in Politics." The judge is always an interesting speaker, and what he has to say on this matter will be well worth listening to.

Rev. Peter Pelzer, who has been assistant to Father Gilbertson at the Guadalupe church for the past year has been appointed parish priest at San Marcial, and will leave shortly to take charge of his new flock. A railroad man dangerously liable to get on to inside facts has learned that the Rio Grande road will standard gauge at Santa Fe sooner than the public generally imagine; also, that the beginning of this improvement is the broadening of the gauge west of La Veta. This section of the country is growing, and the Denver & Rio Grande management is fully alive to the fact.

A TRAGIC DEATH.
Louis Digneo, of This City, Meets with a Fatal Accident at Cerrillos Yesterday—His Parents Prostrated.
The town was startled yesterday afternoon by a report from Cerrillos that Louis Digneo, aged 31, and son of John Digneo, of this city, had met with a sudden and tragic death that morning from a pistol shot. It was at first thought he had committed suicide, but an examination of the wound later, and the circumstances surrounding the case, fail to show that the unfortunate young man came to his death in any such manner. The facts in the case, as gleaned this morning, are as follows:
The deceased had gone over to Cerrillos to collect moneys due on a monument, and bought a round trip ticket, thus showing that he had intended to return alive. Digneo registered at the local hotel Saturday night, and arose about 7 a. m. While putting on his trousers he loaded his six-shooter he was wont to carry with him fell out of the hip pocket and the hammer, striking against the side of the bed, the weapon was discharged. The bullet entered the unfortunate young man's body between the fifth and sixth ribs on the left side, and ranging upwards, passed through the heart and lodged in the spine back of the aorta and about four inches below the neck. The wound, of course, was mortal, and Digneo died immediately, falling back on to the bed. There the body laid until after 9 o'clock. The proprietor of the hotel saw it there, but from the position, thought the young man had come in late and not entirely undressed before falling asleep. So it was nearly 10 o'clock before any examination was made, and then the true nature of the situation was discovered, and the gun was found lying on the floor. Carlos Digneo, uncle of the deceased, was wired immediately and sent Undertaker Wagner to Cerrillos with a coffin and wagon. The remains were brought to this city last night and embalmed ere taking them to the house on the south side. Mr. and Mrs. Digneo were prostrated when the news was broken to them.

The deceased was a member of the A. O. U. W. and the Woodmen of the World, and as suicide would affect insurances held in these orders, as well as the matter of a Catholic burial, an autopsy was held this noon. This settled all controversy by showing that the shooting was entirely accidental, and suicide did not enter into the case at all. The funeral will be held from the cathedral at 8 a. m. tomorrow, with interment in the Rosario cemetery. Foreman Jack Owen and 12 stone cutters from the capitol building will attend the funeral.

HEART DISEASE.
SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLES.
Do Not Be Alarmed, But Look for the Cause.
Heart troubles, at least among Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion. Real, organic heart disease is incurable; but not one case in a hundred of heart trouble is organic.
The close relation between heart trouble and poor digestion is because both organs are controlled by branches of the same great nerves, the Sympathetic and Pneumogastric.
In another way, also, the heart is affected by that form of poor digestion, which causes gas and fermentation from half digested food; there is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action; hence arises palpitation and short breath.
Poor digestion also poisons the blood, makes it thin and watery, which irritates and weakens the heart.
The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.
This can best be done by the regular use after meals, of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements in a pleasant, convenient form.
It is safe to say that the regular, persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach.
Full sized package of the tablets sold by druggists at 50 cents.
